

SKOB

Shrouded Knock Off Button

The Spartan SKOB “Shrouded Knock Off Button” is designed to allow emergency shut down of electrical equipment. The integral shroud reduces the risk of accidental plant shutdown and nuisance tripping. The Button cannot easily be pressed from an acute angle.

Dimensions

Height : 78mm Width : 75mm Depth : 90mm

Electrical Information

10(6)amp 250v. “Normally closed” contact switch

Options
